DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this section can be found in the prior office action.
2. The prior office actions are incorporated herein by reference. In particular, the observations with respect to claim language, and response to previously presented arguments.
3. Claims 31, 46 and 47 have been cancelled.
4. Claims 1, 8, 9, 17, 18, 23-30, 33, 38 and 45 have been amended.
5. Claims 1-30, 32-45 and 48-55 are pending.
6. Examiner withdraws objection to the drawings and specification due to correction by the applicant.
7. Examiner withdraws rejection of claims under 35 U.S.C. 112-second paragraphs due to correction by the applicant.

Information Disclosure Statement PTO-1449

8. The Information Disclosure Statement submitted by applicant on 08/15/2005 has been considered. Please see attached PTO-1449.

Response to Arguments

9. Applicant's arguments filed on 08/31/2005 have been considered but they are not persuasive.

- Applicant's arguments are based on where the location of process takes place such as which terminal, consumer, merchant or the third party. However Examiner considers that Rosen in View of Mengin disclose the process itself as it has been detailed in the first office action. Therefore it would have been obvious that when such process is being taught it can be copied or processed by any entity within the networking environment. Switching a process from one location to another is not Novel nor an inventive step over Prior Art of records. For Example, the process of Hashing, Digital Signature, Digital Certification are all well-known process in the art (please see any computer dictionary in that regards).
- Examiner has given weight to the Applicant's amendment and arguments and it is valid in the light of the objected claims below.
- Examiner however would reconsider if applicants clearly state what exactly applicant's process solve over the prior art since the summary of the invention are not defined such a process. Also Rosen in view of Mengin do disclose random numbers and digital signature and hashing. Applicant's arguments that Rosen do not disclose the number R as random number are not persuasive since the naming of random numbers is not novel nor an inventive step, it is just a preference of applicant for naming the a "random number".
- Examiner strongly suggest applicant to distinguishes the applicant's invention over prior art in a clear manner, and disclose arguments concentrating on applicant's inventive processes over Rosen in View of Mengin in harmony with

the claim's language or amending the claims that such a process becomes clear in harmony with the arguments that will be presented. However such amendments should not raise new issues that necessitate further search or consideration.

Claim Rejections - 35 USC § 102

10. **Claims 38-45 and 51-55** are rejected under 35 U.S.C. 102(e) as being anticipated by Mengin et al (us2002/0095383 A1).

As per claims 38-45 and 51-55 please see the last office action as examiner maintain **the previous Examiner's office action** in that regard and in the light of the above arguments that deals with applicant's amendments and arguments.

Claim Rejections - 35 USC § 103

11. **Claims 1, 8, 24, 30, 32-37, 48, 49 and 50** are rejected under 35 U.S.C. 103(a) as being unpatentable over Rosen; and with respect to 48 in view of Mengin et al. Please see the last office action as examiner maintain **the previous Examiner's office action** in that regard.

Allowable Subject Matter

12. **Claims 2-7, 9-23 and 25-29** would be allowable if rewritten as independent claims to include all of the limitations of the base claim and any intervening claims.

Conclusion

13. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
